Skills

- **Languages**: JavaScript, Java, CPP, C, Python, SQL
- **Frameworks**: NodeJS, React, Express, NextJS, HTML and CSS, Tailwind, Socket.IO
- **Tools/Platforms**: Docker, MySQL, MongoDB, Git, GitHub, Vercel, Render
- **Soft Skills**: Leadership, Adaptive, Reliable, Iterative Improvement, Persistence

Projects

Akhada Analytics – Full-Stack Fitness Tracking Platform | GitHub | Live **Feb' 26**

- Built a mobile-first MERN fitness platform combining workout logging, nutrition tracking, and body analytics, featuring JWT dual-token auth, Google OAuth, and a 900+ item multi-cuisine food database.
- Engineered an interactive Muscle Heatmap with 7-day frequency visualization, automatic Personal Record detection, and pre-built programs from elite athletes (CBum, Ronnie Coleman, Jeff Nippard).
- Deployed full-stack on Vercel + Render with MongoDB Atlas; implemented Helmet, rate limiting, bcrypt (12 rounds), and token-reuse detection for production-grade security.
  TECH STACK: React 19, Node.js, Express 5, MongoDB Atlas, Mongoose 9, Zustand, Recharts, Framer Motion, JWT, Google OAuth 2.0, Vercel, Render.

E-lib – Digital Library Management System | GitHub **Dec' 25**

- Engineered a full-stack MERN application to digitize library operations, enabling secure book discovery, borrowing workflows, and role-based administration.
- Implemented approval-driven borrowing architecture with inventory tracking, managing 3 core data models (Users, Books, Borrows) and 15+ RESTful APIs.
- Delivered a production-ready system with optimized CRUD operations and protected admin routes, supporting concurrent user activity and consistent data integrity.
  TECH STACK: React, Node.js, Express, MongoDB, Mongoose, JWT, Git, GitHub, Vercel, Render.

Portfolio – Personal Developer Portfolio | GitHub | Live **Nov' 25**

- Designed and built a minimal card-based personal portfolio with smooth scroll (Lenis), dark/light theme toggle, and pure CSS animations using custom properties — zero UI frameworks.
- Deployed on Vercel with auto-deploy on every push; structured with a clean Vite 5 build pipeline outputting optimized assets (JS gzip: 55 KB, CSS gzip: 3.4 KB).
- Integrated a downloadable CV, project showcase, and contact section; demonstrates frontend engineering discipline with attention to performance and UX polish.
  TECH STACK: React 18, Vite 5, Lenis, Pure CSS (custom properties), Vercel, Git, GitHub.

Summer Training

Centre for Professional Enhancement | GitHub | Certificate **Jul' 25**

- Completed a Data Structures course covering arrays, linked lists, stacks, queues, trees, and graphs
- Applied data structures through hands-on exercises and problem solving, strengthening algorithmic thinking.
- Awarded a Certificate of Merit for strong performance and practical proficiency.

Certificates / Certifications

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | Certificate **Jul' 25**
- Cloud Computing – NPTEL - IIT Kharagpur | Certificate **Apr' 25**

Achievements

- Solved 100+ problems on LeetCode, strengthening algorithmic proficiency and problem-solving accuracy by 25%.
  Profile **Nov' 25**
- Earned LeetCode 50-Day Badge 2026 for maintaining a consistent daily problem-solving streak.
  Badge **Jan' 26**

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 8.*** *Since Aug' 23*
- **BSF Senior Secondary School** J&K,Jammu
  Intermediate; **Percentage:** 79% *Apr' 21 – Mar' 22*
- **BSF Senior Secondary School** J&K,Jammu
  Matriculation; **Percentage:** 78% *Jun' 19 – Mar' 20*
