Skills

- **Languages**: JavaScript, Java, CPP, C, Python, SQL
- **Frameworks**: NodeJS, React, Express, NextJS, HTML and CSS, Tailwind, Socket.IO
- **Tools/Platforms**: Docker, MySQL, MongoDB, Git, GitHub, Vercel, Render
- **Soft Skills**: Leadership, Adaptive, Reliable, Interative improvement, Persistence

Projects

E-lib – Digital Library Management System| GitHub **Aug' 25**

- Engineered a full-stack MERN application to digitize library operations, enabling secure book discovery, borrowing workflows, and role-based administration.
- Implemented approval-driven borrowing architecture with inventory tracking, managing 3 core data models (Users, Books, Borrows) and 15+ RESTful APIs.
- Delivered a production-ready system with optimized CRUD operations and protected admin routes, supporting concurrent user activity and consistent data integrity .

  TECH STACK: Git , GitHub , MERN Stack.

Parking Management System – Multi-floor Web Application| GitHub **Jun' 25**

- Designed and developed a web-based parking management system to efficiently manage multi-floor parking operations with real-time slot visibility..
- Implemented dynamic parking workflows including vehicle entry, exit, priority parking allocation, and floor-wise slot management using client-side logic.
- Delivered an interactive, responsive UI with color-coded availability indicators, activity logs, search functionality, and daily parking reports for operational clarity.

  TECH STACK: HTML , CSS , JavaScript, Tailwind , Git , GitHub Pages

SubmiTrack - Assignment Submission & Management System | GitHub **Apr' 25**

- Built a scalable MERN-based academic workflow platform to streamline assignment creation, submission, grading, and deadline enforcement.
- Designed dual-role access control (Student/Instructor) with secure JWT authentication, file uploads, late submission detection, and grading pipelines.
- Applied industry-grade Git practices including feature branching, rebasing, tagging, and release management to ensure stable, maintainable deployments.

  TECH STACK: MongoDB, React JS, Tailwind CSS, Git , GitHub.

Summer Training

Centre for Professional Enhancement | GitHub | Certificate **Jul' 25**

- Completed a Data Structures course covering arrays, linked lists, stacks, queues, trees, and graphs
- Applied data structures through hands-on exercises and problem solving, strengthening algorithmic thinking.
- Awarded a Certificate of Merit for strong performance and practical proficiency.

Certificates / Certifications

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | Certificate **Jul' 25**
- Cloud Computing – NPTEL - IIT Kharagpur | Certificate **Apr' 25**

Achievements

- Strengthened algorithmic proficiency by solving 100+ problems LeetCode, and increased accuracy by 25%. | Link **Nov' 25**
- Earned Badges for Python on HackerRank. | View Profile **Dec' 24**

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 8.*** *Since Aug' 23*
- **BSF Senior Secondary School** J&K,Jammu
  Intermediate; **Percentage:** 79% *Apr' 21 – Mar' 22*
- **BSF Senior Secondary School** J&K,Jammu
  Matriculation; **Percentage:** 78% *Jun' 19 – Mar' 20*
